COMPLETION

Design: In Progress

Project Description:

PLA was asked to provide an updated landscape plan for the semi-modern, Bedford stone residence in one of Lexington's older and more established areas – Chinoe/Ashland. The previous landscape design was completed and installed in 1995 and had reached an age at which it needed to be replaced. Playing off of the style of the home and the existing landscape design, the design was a mixture of organic shapes and hard geometry. The use of 4-season landscape, in addition to the existing historic blue ash tree, adds year-round interest to the already attractive home.
